

CLOUD RESALE & DISTRIBUTION

Cloud billing platform engineered for accuracy at scale

Cloud billing, rerating, and accuracy at scale to unlock new revenue streams with a platform built to scale modern cloud distribution.

Trusted by global cloud distributors

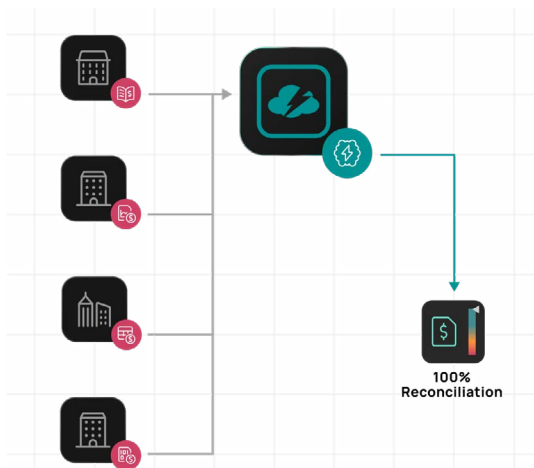

Data#3 **GIACOM.** **PERFICIENT**

Purpose-built for the business of cloud

BILLING AUTOMATION

Automated billing that actually works

Don't waste another month reconciling provider bills by hand. Automate multi-cloud billing with sophisticated margin management, currency conversion, and customer-specific pricing rules. Turn weeks of work into minutes of accuracy.

MARGIN PROTECTION

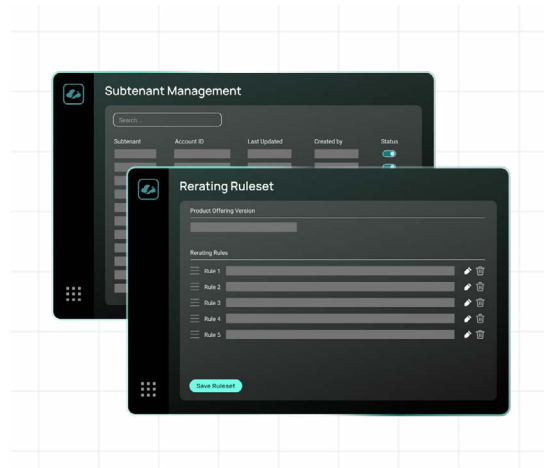

Protect margins without manual oversight

Inaccurate data and clunky processes erode already-thin margins. Enforce pricing policies, mask partner-earned credits, and reach 100% reconciliation accuracy—without needing a patchwork of manual checks.

CUSTOMER EXPERIENCE

Trustworthy billing, down to the decimal

No more billing complaints or escalations. Deliver real-time, white-labeled portals that mirror the final invoice—clean, transparent, and always up to date.

SERVICE EXPANSION

Launch the FinOps services customers want

Cloud resale is just the foundation. Build on it with forecasting, cost optimization, and spend analysis—high-margin FinOps services your customers actually need.

Feature highlights

Multi-tenancy

Support thousands of customer accounts and complex multi-tiering scenarios without performance degradation.

Pricing rules

Define granular margins and discounts for each customer, service tier, or region for maximum billing flexibility.

Cloud program support

Handle all major resale programs, including Direct and Indirect Azure CSP, AWS Direct SPP, and Google's Partner Advantage.

Automated billing

Reduce end-to-end invoicing processes from weeks to just hours and eliminate manual errors through full automation.

White-label

Deliver a fully branded customer experience using extensive customization features for dashboards, reports, and alerts.

Cost optimization

Empower clients to identify overprovisioned resources and automate cost-reducing activities like power scheduling.

Finally, a platform built for distributors, not retrofitted. We seamlessly absorbed a complex acquisition that would have broken our old system."

- VP of Operations, Giacom

CLOUDBOLT
The cloud ROI company®

Why leading resellers choose CloudBolt

80% faster billing cycles

From weeks to hours, every month

100% billing accuracy

Zero disputes, zero revenue leakage

7,000+ customer accounts

Proven scale for the largest distributors

Full program compliance

Ready for AWS, Azure, and GCP distribution requirements

Tired of chasing billing accuracy every month?

See how leading providers are closing the books faster, resolving fewer disputes, and turning billing into a competitive edge.
