

# ACCELERATE MULTI-CLOUD, OPERATE AT SCALE

The #1 solution for flexible cloud-related automation, optimization, and control.

## CLouDBOLT AT A GLANCE

### ANY CLOUD. ANY TOOL. ANY TEAM. ANYWHERE.

Your cloud is constantly evolving. How can you keep up if you don't have an overarching solution with the flexibility to adapt? CloudBolt's framework of advanced capabilities abstract away complexity, accommodating existing investments and making them consumable.

#### NEXT-GENERATION MULTI-CLOUD OPERATIONS

##### AUTOMATION & ORCHESTRATION

Unify platforms and processes via self-service to accelerate outcomes using an orchestrator of cloud operations.

##### COST VISIBILITY & OPTIMIZATION

Optimize budgets, quotas, alerts, and reports via a single integrated view across all clouds.

##### SECURITY & GOVERNANCE

Enforce best practices and govern risky behavior out of the process.

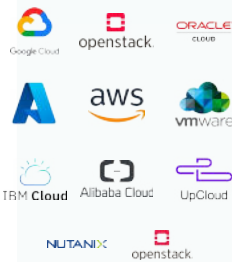

#### CloudBolt Framework

##### DISCOVER

###### Gain visibility

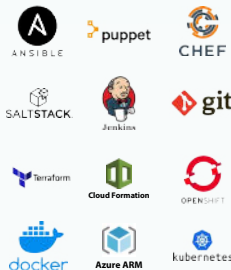

Get the information and control you need from all your clouds and tools in one place.

##### BUILD

###### Deploy faster

Automate the deployment of workloads through a self-service IT portal.

##### OPERATE

###### Scale effortlessly

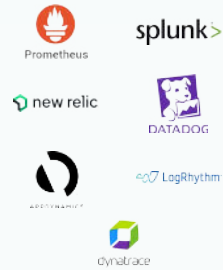

Share what works, remove duplication of efforts, and give your teams the tools they love, with compliance and security built-in.

##### VISUALIZE

###### Show, tell, alert

Automate the collection and reporting of key data and possible disruptions, all in one place. Drive FinOps.

##### OPTIMIZE

###### Continuously improve

Track cloud spend, automate power scheduling, get suggestions on how to improve.

## ABOUT US

### IT TAKES A FRAMEWORK

CloudBolt offers a comprehensive, award-winning cloud automation, visibility, and governance framework specifically built to stitch together your disparate multi-cloud, multi-tool, multi-team world and bring order to your infrastructure chaos. CloudBolt has systematically built capabilities that benefit everyone across an enterprise – ITOps, DevOps, SecOps, and FinOps – by enabling:

- **Clarity into multi-cloud spend** with robust reporting that enables real optimization
- **Self-service IT** that truly is automated (no expertise required)
- **Guardrails for better governance** that ensure compliance and increase your security posture
- **Reusability of proven best practice elements, blueprints, and code**, stop reinventing the wheel across teams

Our framework allows you to unify and simplify – today and tomorrow. Future-proof your cloud strategy with [CloudBolt](#).

Having **one central multi-cloud solution** to get visibility over everything was essential.”

- Justin Dolly, CSO & CIO of Sauce Labs

#### ACCELERATE COST VISIBILITY

See, understand, and act upon cloud usage and cost data the way you always wished you could.

[LEARN MORE >>>](#)

#### ACCELERATE COMPLIANCE AND SECURITY

Invisibly build security, compliance, and governance into every workload so that it can't be overlooked later.

[LEARN MORE >>>](#)

#### ACCELERATE THE TOOLS YOU LOVE

Get more out of <insert tool or cloud here>. CloudBolt accelerates results.

[LEARN MORE >>>](#)

#### ACCELERATE APP DEVELOPMENT

With CloudBolt, devs don't have to be experts in CloudOps. They can focus on being experts in innovation.

[LEARN MORE >>>](#)

#### ACCELERATE AUTOMATION

You have cloud automations across your entire organization. You need an “orchestrator of automations.”

[LEARN MORE >>>](#)

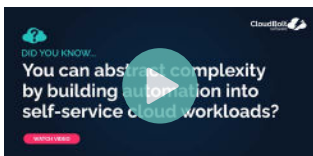

#### ACCELERATE NATIVE CLOUD

Go beyond the tools the cloud providers offer to get more functionality and more visibility.
