

# How CloudBolt Cost & Security Management Simplifies Cloud Cost Optimization Over Apptio Cloudability

CloudBolt Cost & Security Management (formerly Kumulus) is the next-gen solution for multi-cloud cost management, optimization, and compliance. It is leveraged by enterprises to help engineers take actions, reduce cloud waste, and align finance to technology initiatives. Cloudability does not help customers take direct actions from the platform for cost savings, or for security and compliance.

	Why Choose CloudBolt?	CloudBolt Cost & Security Management	Apptio Cloudability
<b>Intelligent cost savings</b>	Automate savings up to 40% through action-oriented policies	<p>Platform provides intelligent saving recommendations for cloud environments such as AWS, Azure</p> <p>Save money in minutes by taking actions straight from CloudBolt Cost Management. No need to go to various portals or scripting, etc.</p>	<p>Saving recommendations are not always accurate, requiring analysis using spreadsheets or scripting</p> <p>Limited actions allowed directly from platform, requiring manual efforts or scripting</p>
<b>Simplified security and compliance</b>	Stay secure and compliant with real-time insights	<p>Built in 300+ security checks for AWS well-architected, NIST, CIS, HIPAA, etc.</p> <p>Proactive threats and vulnerabilities detection and alerting in Slack channels or email</p>	No security and compliance solution available from the platform
<b>Comprehensive visualization</b>	Get complete picture of your multi-cloud environment at your fingertips	<p>Dynamically visualize your cloud infrastructure in real-time from VPC to security groups, Multi AZ, etc.</p> <p>Overlay compliance frameworks such as CIS, NIST, HIPAA, etc. to identify compliance gaps by services</p>	<p>No ability to visualize the environment through stack diagrams</p> <p>No ability to visualize the security and compliance vulnerabilities from the platform</p>

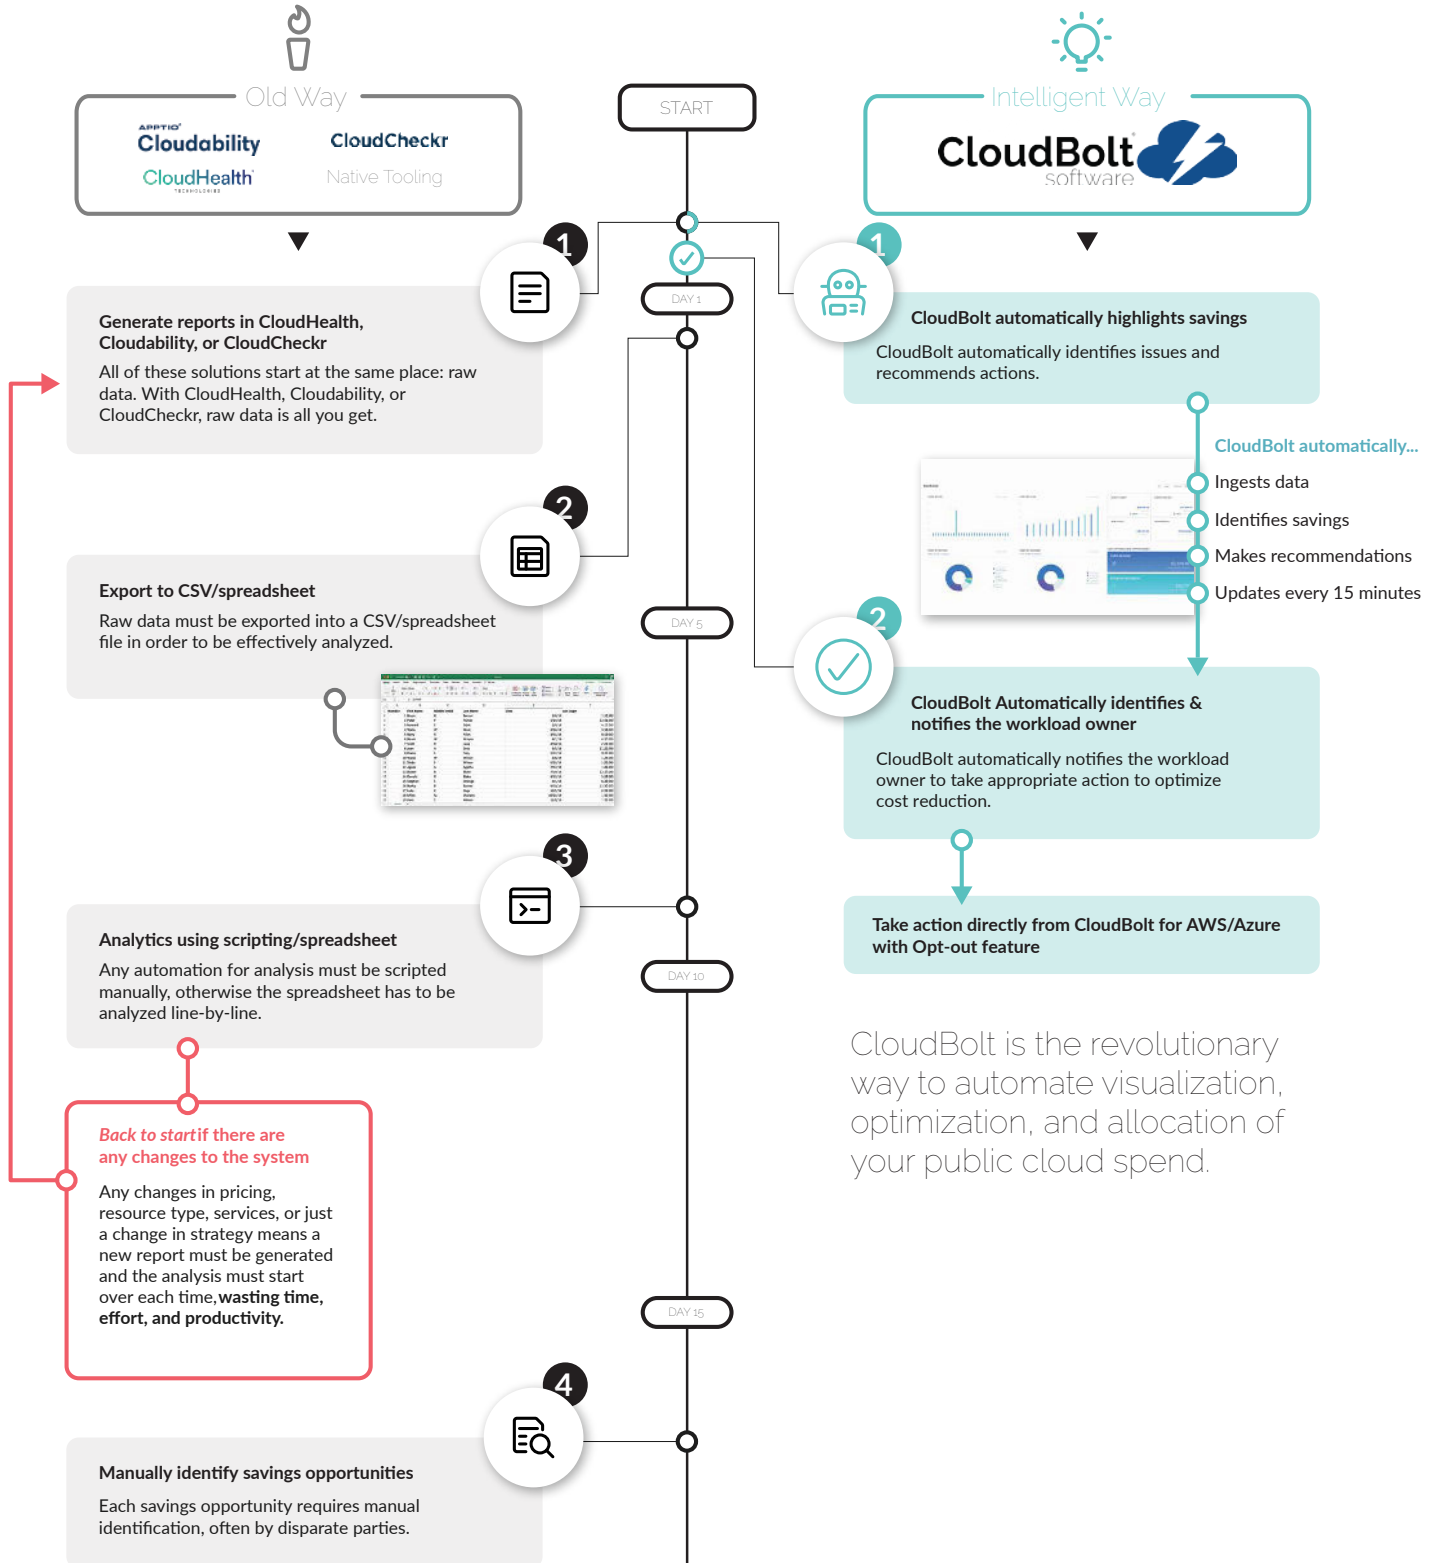

# THE PROBLEM WITH TRADITIONAL WAYS OF Managing Cloud Costs

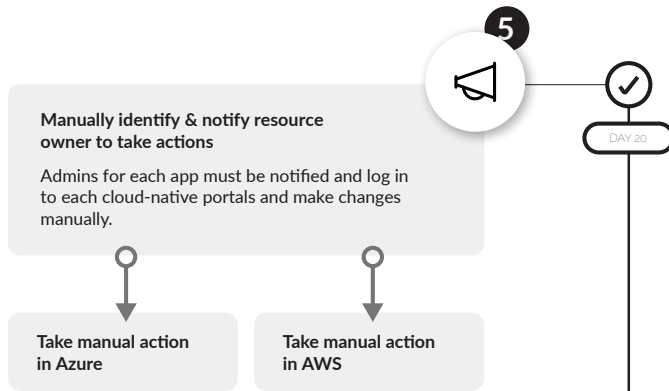

**Too much focus is on reconstruction of "what happened" versus on-going optimization, automation, and action going forward**

MANAGING CLOUD COSTS

# Old Way vs The Intelligent Way

39% of engineers admit to NOT TAKING ANY ACTION WHATSOEVER to remediate problems found using dated cloud optimization methods.

Old Way

TOTAL TIME SPENT

15-20 days

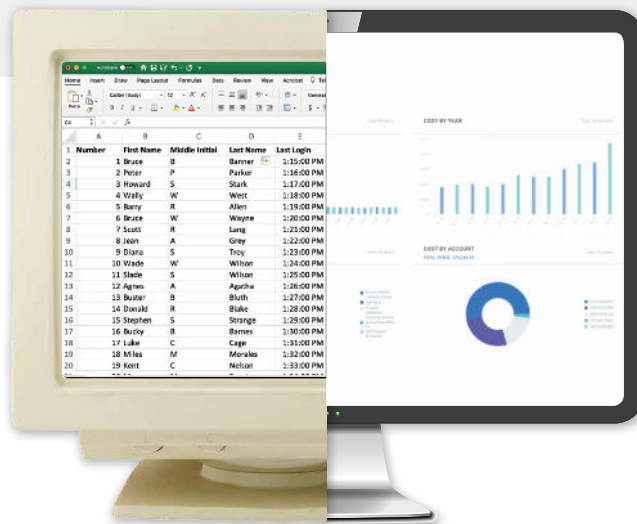

Intelligent Way

TOTAL TIME SPENT

5 minutes

FINISH

- Provides only raw data
- Requires weeks of manual analysis and action
- Automation requires manual building of scripts
- Impossible to scale

- Automatically analyzes data and provides an optimized solution
- More real-time information (15 minutes refresh rate vs days)
- 7x more information compared to other tools
- More automation for immediate notification and action

Automate and act to optimize your public cloud spend with CloudBolt

## Listen To What Our Customers Are Saying

**Security visualization in CloudBolt Cost & Security Management (formerly Kumolus) has been a game-changer. It helped me identify those security vulnerabilities that I would have not got to otherwise.**

-Sr. Solutions Engineer

**CloudBolt Cost & Security Management (formerly Kumolus) are completely aligned with what we need to deliver and the speed at which we need to operate. They understand our customer's and that's our business.**

-CTO, RightCloud

**CloudBolt Cost & Security Management (formerly Kumolus) really helped us analyze and understand our AWS costs, automated our environment shutdowns and set budget alerts for our resource usage.**

-Sales Director

**Support is outstanding. CloudBolt has provided a tremendous platform that can literally do anything - even order a pizza ;) Our developers have yet to provide a use case that we couldn't engineer.**

-Sr. Systems Engineer, Healthcare Industry

**With a few clicks we now have multi-tenanted visibility of our service costs, scheduling systems, budget awareness and automated delivery of customized reports for all our customer.**

-CTO, RightCloud

CloudBolt Software is the enterprise cloud management leader. Our comprehensive solutions for IT automation, orchestration, self-service IT, cost optimization, and security help enterprises simplify complexity and achieve rapid time-to-value anywhere on their hybrid cloud, multicloud journey. Our award-winning cloud management platform and infrastructure integration services are deployed and loved by enterprises worldwide. Backed by Insight Partners, CloudBolt Software has been named one of the fastest-growing private companies on the Deloitte Fast 500 and Inc. 5000 lists. In addition, CloudBolt is 2020 CODiE award winner for best cloud management and featured in Gartner's Magic Quadrant for Cloud Management Platforms.
